

Babyland Mission

Babyland Family Services, Inc. is a model child care and family development organization, committed to a firm belief in the sacredness of human life. Babyland provides school readiness and permanency for children, strengthens family life, creates a safe and nurturing community and empowers each person to live a full and productive life.

Our philosophy is to offer children and families innovative, safe, and positive experiences which stimulate minds, enhance their socialization skills, and create opportunities to become self-sufficient.

**Child Care
Program**

A Proud Past

In August 1969, Babyland Nursery was established as the first infant childcare program in the State of New Jersey. From there, Babyland established one of the nation's first child care programs for infants and toddlers infected and affected by AIDS and the HIV virus in 1989.

In 1979 the Babyland Domestic Violence Shelter was established as Essex County's first family violence program, provides 24-hour crisis intervention, shelter, counseling, legal and housing advocacy, and community education for victims of domestic violence. Consistent with its mission to strengthen family life and provide permanency for children, Babyland established the Children Together Foster Care program in 1993—another first in Essex County.
